HOW TO JOIN

You can join any of the Challenges as a Corporate Team - with colleagues or business partners. The best way to get involved is to contact our team initially - and we can then figure out the best way of making your Challenge work well for your team from the outset.

There are a few ways in which the team can sign up, and we'll get the details right to make it smooth and hassle free at your end. We'll deal with the admin normally associated with getting a team together and signed up on to an event – and tailor the pre-event communications to match your requirements and timelines.

There are flexible payment options too to suit your needs. Either pay the Full Cost of each place (SELF FUNDING - no fundraising obligation but the team can do so if they wish) or choose a charity to support, pay an initial Registration Fee online and also commit to a Minimum Fundraising target for that charity with a MIXED FUNDING and CHARITY SPONSORSHIP option. Individuals can pay the registration fee through the registration form OR the company can pay, via invoice closer to the Challenge. You don't have to pre-purchase places, or buy in advance – you will only pay for your team size.

We work with over 300 charities – and you can still nominate a charity if it's not listed – we will make contact with your chosen charity and organise the details.
